

WHY ARE WE REJECTING THE OFFER?

1. **3 out of 4 faculty will have very limited to no time for Office Hours.** *Are you ok with only getting to speak to and have support from your teacher during class time?*
2. **No guarantee of Academic Freedom.** *Would you rather have your expert teacher decide on what should be taught and evaluated in your class, or a manager with no knowledge on the class subject matter?*
3. **Part-time faculty remain on contract without job security.** *Are you satisfied with your part-time teachers not being able to meet with you after class, nor update your courses with the most current content as they do not know if they will teach this course again?*

Take action now and demand the College get back to the table!
